100 Men of Indianola Kick Off

Indianola Golf Club

Indianola, IA 50125

05:30 PM - 07:00 PM CST

Ryan williams, 5158037782

100menwhocareindianola@gmail.com

HOW IT WORKS

100 men commit to gathering once per quarter to make a significant impact on the non-profits that serve the Indianola Community.

Each man commits to \$400 each year for charitable purposes. This can be paid for the full year in advance, or in \$100 donations at each quarterly meeting.

At the beginning of each meeting every member has the option to nominate a local 501(c)(3) organization which provides programs and services for the Indianola community. Three Nominations are drawn at random each meeting. The 100 Men Who Care members who nominated the selected

non-profits will be asked to advocate for their organization by giving a 5 minute presentation about what they do and why they need/deserve the donation.

All paid members vote for the nonprofit they believe most worthy of that quarterly grant.

*The chosen nonprofit receives our \$100 donations as a "no-strings-attached" grant, with the goal being \$10,000**

**Amount will be based upon the number of paying members at that time, and may not be the full*

\$10,000 while we grow to be a 100 member entity. 100 Men Who Care Indianola partners with a local non-profit fiscal agent who disperses the collected funds to the selected non-profit agencies

Sinikka Waugh, 515-422-0545

We don't have time to do things twice. We also don't have time to repeat ourselves. So how do we get our messages through the first time?

When we're concerned about the level of risk on a project, how do we get that through to the people who need to be prepared for delays or cost overruns?

When we need additional resources to resolve the issue at hand, how do we get the attention of those who have moved on to other priorities in the business?

When the decisions that need to be made have lasting impacts on the health of the organization as a whole, not just the stakeholder who screams the loudest, how do we make sure all of the right people are involved and paying attention?

When we need input from everyone, not just the highest paid person's opinion, how do we engage all and only the right people?

Influencing up has never been more challenging than it is right now, because there are so many competing demands for our attention!

Right now, you've already moved on to something else in your head. But come back...Because there's real pain here, and a need for real solutions. And we can talk through some real solutions. Influencing up is an art and a bit of science. There are tools and techniques that help us. There are some charts and boxes and some proven processes we can follow.

This quick-hit, action packed webinar will give you a set of

Critical success factors for influencing up in any organization, of any size or scale or industry.

Three techniques to help you focus your own skill growth where you need it most.

Practical, easy to apply tips to help you improve your stakeholder interactions to influence up, starting now.

Changemakers are the individuals who put the good of the organization first, make authentic human connection, and consistently treat change as a process, not an event. They make things happen.

More often than not, though, Changemakers get stuck. There's not enough budget. Our projects keep falling behind. We rarely stick to a change when we propose one. Someone is always upset about an initiative. Is there a better way? Yes!

*For change
To get more done
To bring people along*

By attending this course, participants will:

*Gain tools to help you improve your influence
Encounter a simple, easy-to-apply model for talking about one of the most disruptive forces at work

We don't have time to do things twice. We also don't have time to repeat ourselves. So how do we get our messages through the first time?

When we're concerned about the level of risk on a project, how do we get that through to the people who need to be prepared for delays or cost overruns?

When we need additional resources to resolve the issue at hand, how do we get the attention of those who have moved on to other priorities in the business

When the decisions that need to be made have lasting impacts on the health of the organization as a whole, not just the stakeholder who screams the loudest, how do we make sure all of the right people are involved and paying attention?

When we need input from everyone, not just the highest paid person's opinion, how do we engage all and only the right people?

Influencing up has never been more challenging than it is right now, because there are so many competing demands for our attention!

Right now, you've already moved on to something else in your head. But come back... Because there's real pain here, and a need for real solutions. And we can talk through some real solutions. Influencing up is an art and a bit of science. There are tools and techniques that help us. There are some charts and boxes and some proven processes we can follow.

This quick-hit, action packed webinar will give you a set of

Critical success factors for influencing up in any organization, of any size or scale or industry.

Three techniques to help you focus your own skill growth where you need it most.

Practical, easy to apply tips to help you improve your stakeholder interactions to influence up, starting now.

Grow Here Now: Does Your Business Return the Value You Expect?

Your Clear Next Step

08:00 AM - 11:30 AM CST

Indianola Chamber of Commerce, 515-961-6269

If someone asked you if everyone at your business is all working towards the same goals, headed in the same direction, working consistently as a unified team, would you smile and say, "Absolutely!" or would you pause? When was the last time you could say confidently that your business was on track to achieve the goals you set out? Is any delay in your response because you haven't measured, or because you haven't set the goals?

It turns out that the healthiest organizations – the ones that produce the most consistently strong results, the ones that are able to predict outcomes even in unpredictable economic times, the ones that attract and retain the best employees, the ones that maintain the most lasting and stable relationships with their vendor partners – are the ones that do a handful of simple things:

They have a simple but clear picture of why they do what they do and how they show up.

They have a focused understanding of who they serve.

They have a way to talk about the work they do that lets them see if they're on track or off track and get back on track when they're not.

Do you have that? Do you want that? It doesn't have to be complicated. Join us for this hands-on half-day workshop with Sinikka Waugh, president and founder of Your Clear Next Step as she brings the very best of business leadership to bear. From right here in Indianola, over the past 17 years, Sinikka and the Your Clear Next Step team have helped over 56,000 people in hundreds of organizations of all shapes and sizes have better workdays through simple tools like the ones she's offering here.

Join the Indianola Chamber & Your Clear Next Step on Tuesday, September 30th from 8:30AM-11:30AM for meaningful insights into figuring out how to keep your business on track!

Enabling Change and Empowering Changemakers

<https://info.yourclearnextstep.com/enablingchangeffreewebinar2025>

11:00 AM - 12:00 PM CST

Sinikka Waugh, 515-422-0545

With just a handful of key concepts, Changemakers can enable change in an organization in a way that protects business interests, empowers people, and simplifies the process. Join us in this session to learn more.

Changemakers are the individuals who put the good of the organization first, make authentic human connection, and consistently treat change as a process, not an event. They make things happen.

More often than not, though, Changemakers get stuck. There's not enough budget. Our projects keep falling behind. We rarely stick to a change when we propose one. Someone is always upset about an initiative. Is there a better way? Yes!

This jam packed and engaging session will give you the tools and techniques for a better way...

*For change
To get more done
To bring people along*

By attending this course, participants will:

*Gain tools to help you improve your influence
Encounter a simple, easy-to-apply model for talking about one of the most disruptive forces at work
Enable you to identify and empower changemakers around you*
